Loxon has improved eleven places in Chartis' RiskTech100® 2022

Loxon
Customer Satisfaction

Loxon is proud to announce that in the Chartis's RiskTech100® report for 2022, out of the top 100 companies in the field of risk technology we were ranked 53rd. We were also the award winner in the Customer Satisfaction category.

As Chartis is a market leader in providing accurate analysis and research across various fields of risk and compliance technology, Loxon is extremely proud to have earned this prestigious ranking, improving 11 places since last year. It represents our best ranking since 2016, when Loxon was first included in Chartis's annual list.

We are grateful to Chartis for recognising our tireless effort to improve ourselves and to serve the changing needs of the market by providing higher and higher value to our customers. This collaboration has, over time, given us the opportunity to introduce our services to a platform of industrial experts and to show our uniqueness in the risk management marketplace.

*"Loxon's robust growth in credit risk and its effective, logical synergies with related areas such as IFRS provision, demonstrate a strong understanding of the market," said **Phil Mackenzie**, Research Principal at Chartis. "This, together with its 'customer-first' approach, has led to expansion in several geographies, and is reflected in its 11-point rise and award win this year."*

*“Each year we are proud to be a part of Chartis’s ranking. But this year, as in 2018, we are particularly honoured to have won in the Customer Satisfaction category,” writes **Tamás Erni**, CEO. “Thanks to our focus on customer intimacy, thought leadership, product support, the delivery of innovations, and the unwavering efforts of our colleagues, we were able to significantly exceed last 2021’s ranking. This upward trend tells us that we are on the right track. Our strategy of combining highly flexible technology, strong and innovative business solutions, an end-to-end credit management lifecycle approach and an ethos of continuous product improvement is working to gain us more and more recognition. We can assure our customers that our core values are built around them, and we are dedicated to providing them with the service they deserve. We are also committed to maintaining and nurturing this relationship, as is reflected by our accolade in the Customer Satisfaction category.”*

About Chartis

Chartis Research is the leading provider of research and analysis on the global market for risk technology. It is part of Infopro Digital, which owns market-leading brands such as Risk and WatersTechnology. Chartis’ goal is to support enterprises as they drive business performance through improved risk management, corporate governance and compliance, and to help clients make informed technology and business decisions by providing in-depth analysis and actionable advice on virtually all aspects of risk technology.

About us
